

Migraine journal

2026-09-01 to 2026-09-29 | Australia/Sydney

Summary

Migraine days: 6 / 29 Episodes overlapping period: 6

Average severity: 5.5 / 10 (6 recorded)

Average completed duration: 3.9 hours (6 wholly in period)

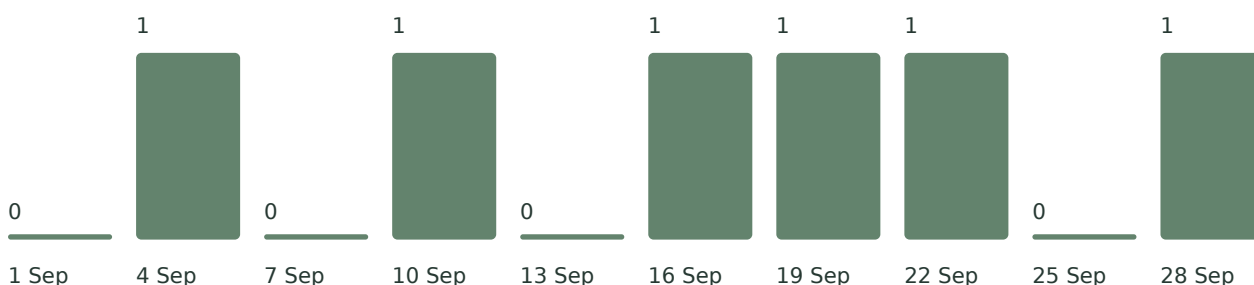

Total migraine hours in period: 23.3 Ongoing episodes: 0

Significantly impacted days (impact 3-5): 3 Average impact: 2.5 / 5

Acute medication days: 5 Doses: 5

Unrecorded days are unknown. Duration is clipped to the period; an ongoing episode is counted through report generation.

Migraine days over time

3-day groups; count of recorded migraine days. Missing entries are not confirmed symptom-free days.

Preventive medications and comparisons

Pizotifen / Sandomigran - 0.5 mg, Nightly. Started 2026-08-15; ended not recorded.

Comparison: 2026-07-16 to 2026-08-14 versus 2026-08-15 to 2026-09-13.

Migraine days / 30 days: 0.0 -> 2.0; hours / 30 days: 0.0 -> 8.0.

Severity: Not recorded -> 5.5; impacted days / 30: 0.0 -> 1.0; acute days / 30: 0.0 -> 2.0.

Observational data only. Differences do not establish medication effects or causation. Recording coverage and other changes can influence results.

Reported side effects

2026-09-28 | Pizotifen / Sandomigran | Morning grogginess, 2/5 - Synthetic demonstration only.

Episode timeline

6 Sep 2026, 08:35 | severity 6/10 | 5h 0m | impact 2/5

Symptoms: Nausea, Light sensitivity

Associated factors: Poor sleep, Stress

Notes: Synthetic demonstration episode.

Medication: Rizatriptan / Maxalt, 1 tablet, 6 Sep 09:05; relief Good.

11 Sep 2026, 08:35 | severity 5/10 | 3h 0m | impact 3/5

Symptoms: Nausea, Light sensitivity

Associated factors: Neck tension, Prolonged screen time

Notes: Synthetic demonstration episode.

Medication: Rizatriptan / Maxalt, 1 tablet, 11 Sep 09:05; relief Good.

16 Sep 2026, 08:35 | severity 7/10 | 6h 0m | impact 2/5

Symptoms: Nausea, Light sensitivity

Associated factors: Poor sleep, Stress

Notes: Synthetic demonstration episode.

Medication: Rizatriptan / Maxalt, 1 tablet, 16 Sep 09:05; relief Good.

21 Sep 2026, 08:35 | severity 5/10 | 3h 0m | impact 3/5

Symptoms: Nausea, Light sensitivity

Associated factors: Neck tension, Prolonged screen time

Notes: Synthetic demonstration episode.

Medication: Rizatriptan / Maxalt, 1 tablet, 21 Sep 09:05; relief Good.

24 Sep 2026, 08:35 | severity 4/10 | 2h 0m | impact 2/5

Symptoms: Nausea, Light sensitivity

Associated factors: Poor sleep, Stress

Notes: Synthetic demonstration episode.

28 Sep 2026, 08:35 | severity 6/10 | 4h 18m | impact 3/5

Symptoms: Nausea, Light sensitivity

Associated factors: Neck tension, Prolonged screen time

Notes: Synthetic demonstration episode.

Medication: Rizatriptan / Maxalt, 1 tablet, 28 Sep 09:05; relief Good.

Note for your doctor

Synthetic demonstration report — not real health information.

About this report

This application records and summarises information and does not provide medical advice.

All entries are self-reported. Migraine days use the configured timezone. Overlapping episodes may double-count hours. No diagnostic conclusions are made.
